

FGDC 2006 WORK PLAN

Agency Name: NARA/USGS/FSA/CIESIN/NCState

Subcommittee or Working Group: Historical Data Committee

Background: Worked last fiscal year on broadening community knowledge of efforts to preserve GIS data in perpetuity.

Objectives: Determine the strengths and weaknesses of preserving GIS data in GML v.3 format.

Benefits or Justification/Legal Mandate: Establishes viability of nonproprietary format for preserving GIS data over the long term.

Scope of Work: Create Wiki website for population of data table that documents the GML schema, its design, vendor support, and learning experiences discovered using the various schema.

Milestones, Schedule, and Budget

Action	Date	Who?	Others?	Budget
Form 3 person team to identify and establish Wiki site	By October 31	Brett Abrams		None
Mete out responsibilities for populating data table at Wiki site	By November 30	Steve Morris		
Populate table with known GML schema types	By February 15	Everyone		
Contact vendors regarding potential demonstrations of products	Between March 1 and June 15	Everyone		
Potential to begin tests of	By July 31			

GML schemas				
Draft results summary	By 9/15
