*Table of Acronyms.*
Introduction

Section 759 (b) of the Geospatial Data Act (GDA) requires each covered agency\(^1\) to submit to the Federal Geographic Data Committee (FGDC) “an annual report regarding the achievements of the covered agency in preparing and implementing the strategy described in subsection (a)(1) and complying with the other requirements under subsection (a).” \([https://fgdc.gov/gda/online](https://fgdc.gov/gda/online)\)

This document serves as the Department of Housing and Urban Development’s baseline annual report to the FGDC covering the period from October 5, 2018 – when the GDA was enacted – through Fiscal Year 2020 (September 30, 2020). The report was developed through a self-assessment template developed by the FGDC agencies. Subsequent annual reports will each span one fiscal year. The report includes a rating for each covered agency responsibility of "meets expectations," "made progress toward expectations," or "fails to meet expectations," as required by the GDA. A summary and evaluation of all of the covered agency reports will be generated by FGDC and provided to the National Geospatial Advisory Committee (NGAC) for review and comment. The summary reports, along with the NGAC comments, will also become part of the biennial FGDC GDA report to Congress and will be published online.

This report is based on a standardized questionnaire and self-assessment score for each covered agency responsibility. The Department of Housing and Urban Development has maintained documentation supporting the responses provided for this assessment. This information may be reviewed as part of the biennial Inspector General (IG) audits of covered agencies.

A recommended self-assessment key has been provided for each responsibility. In some cases, optional text is provided for additional insights or to justify a self-assessment selection. Any optional responses provided are not a factor in the self-assessment. Please note that covered agencies are not expected to “meet expectations” in all areas for this first reporting cycle.

Where data or datasets are referenced,\(^2\) information relates to all geospatial datasets owned or managed by the Department of Housing and Urban Development that are, or should be, available to the public.

To support a more comprehensive picture of agency compliance and related activities, each agency had the option to submit up to a 2-page document, using the survey, as part of the agency’s submission. If provided, the document may include highlights and examples that can supplement the FGDC report to Congress, support the feedback process with the NGAC, or provide context to Office of the Inspector General (OIG) findings.

The Department of Housing and Urban Development self-assessment GDA Covered Agency Annual Report was initially submitted during February 2021.

---

\(^1\) GDA definition of *agency*: \([https://www.fgdc.gov/gda/online#the-term-“covered-agency”—means—an-executive-department-as-def](https://www.fgdc.gov/gda/online#the-term-“covered-agency”—means—an-executive-department-as-def)\n
\(^2\) GDA definition of *geospatial data*: \([https://www.fgdc.gov/gda/online#the-term-%E2%80%98%E2%80%98geospatial-data%E2%80%99%E2%80%99%E2%80%99%E2%80%94means-information-that-is-tied-to-a](https://www.fgdc.gov/gda/online#the-term-%E2%80%98%E2%80%98geospatial-data%E2%80%99%E2%80%99%E2%80%99%E2%80%94means-information-that-is-tied-to-a)\
Self-Assessment for Department of Housing and Urban Development

759(a)(1) Covered Agency Geospatial Strategies

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Made Progress Towards Expectations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prepare, maintain, publish, and implement a strategy for advancing geographic information and related geospatial data and activities appropriate to the mission of the covered agency, in support of the strategic plan for the National Spatial Data Infrastructure</td>
<td></td>
</tr>
</tbody>
</table>

**KEY to Self-Assessment**

- **Meets expectations =**
  - Yes to Question 1.4
- **Made progress toward expectations =**
  - Yes to Questions 1.1, 1.2, or 1.3
- **Fails to meet expectations =**
  - No to Questions 1.1, 1.2, 1.3, and 1.4

**Clarifying Text:** FGDC developed and released a new national strategic plan for the development of the National Spatial Data Infrastructure (NSDI) [GDA Sec. 755(c)], which was approved by the FGDC Steering Committee in November 2020. Covered Agency Geospatial Strategies [GDA Sec. 759(a)(1)], which will support the goals in the NSDI strategic plan, are due to be completed and submitted for agency approval by February 26, 2021, per FGDC guidance. For more information, please visit [http://fgdc.gov/nsdi-plan](http://fgdc.gov/nsdi-plan).

1.1 Has your agency reviewed the draft NSDI strategic plan?

- Yes

1.2 Has your agency developed a plan and timeline to complete development of the Covered Agency Geospatial Strategy appropriate to the agency's mission as required by GDA Sec.759(a)(1)?

- Yes

1.3 Is your Covered Agency Geospatial Strategy on schedule to be completed and submitted for agency approval by February 26, 2021?

- No

1.4 Has your agency completed and implemented your plan?

- No

1.5 If your plan is online? If yes, please provide the URL:

- No
1.6 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(1), "Prepare and implement a strategy for advancing geospatial data activities appropriate to the agency's mission."

The Department of Housing and Urban Development's Enterprise GIS Team is currently revising a preliminary geospatial strategy document and intends to submit a final draft for agency clearance by May 2021.

759(a)(2) Support Data Sharing

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Collect, maintain, disseminate, and preserve geospatial data such that the resulting data, information, or products can be readily shared with other federal agencies and non-federal users.</th>
</tr>
</thead>
<tbody>

<td>• <strong>Fails to meet expectations</strong> =</td>
</tr>
<tr>
<td></td>
<td>o <strong>No</strong> to Questions 2.1, 2.2, and 2.3</td>
</tr>
</tbody>
</table>

Clarifying text:

- This section does not include efforts related to partners, which are covered under Question 7, Section 756(a)(7).
- Review the [GDA definition of geospatial data](#) to consider the questions in this section.
- Remember, your answers should include information about all geospatial datasets owned or managed by your agency that are, or should be, available to the public, not just National Geospatial Data Asset (NGDA) Datasets.
- Sharing standards-based data on the Internet using standard protocols and formats makes it part of the NSDI.
- Additional detail on the definition of geospatial data may be provided by OMB Circular A-16 when finalized.
- Data that will not or cannot be distributed to the public does not need to be considered for GDA-related responses.
2.1 Does your agency ensure that all eligible geospatial data is managed so it can be shared and is it provided in standard formats, as appropriate? (This will include agency open government and transparency guidelines.)

The following items were selected from a picklist:

- Data is currently openly shared to the public.

2.2 Does your agency disseminate eligible geospatial data in a way that can be readily shared in open formats (for example using machine readable formats or searchable metadata)?

- Yes, eligible geospatial data and metadata are shared in open formats.

2.3 Are maintenance processes in place to ensure other Federal agencies and non-federal users have access to the most recent data in addition to data and metadata updates and corrections?

- Yes, agency policies exist to ensure all programs implement data maintenance processes.

2.4 Optional Question: Use the following section to document up to 5 key examples of ongoing or planned activities that ensure eligible geospatial data and associated metadata can be easily shared, understood, and re-used by others, now and in the future.

- Not applicable.

2.5 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(2), "collect, maintain, disseminate, and preserve geospatial data such that the resulting data, information, or products can be readily shared with other Federal agencies and non-Federal users."

The Department of Housing and Urban Development (HUD) Geospatial Data Storefront | A public-facing one-stop shop where users can search for and discover HUD's geospatial datasets, web-based mapping tools, and application programming interfaces (APIs). All data is available for download in a variety of formats (fgdb, shp, kml, csv), and is likewise accessible via service APIs. All content and services are routinely updated according to the data release schedules of the agency's respective program areas.
759(a)(3) Promote Data Integration

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Promote the integration of geospatial data from all sources</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agency Self-Assessment</td>
<td>Meets Expectations</td>
</tr>
</tbody>
</table>
| KEY to Self-Assessment | - Meets expectations =  
  - Made progress toward expectations =  
  - Fails to meet expectations =  |
| | o Yes to Question 3.1 |
| | o Partial to Question 3.1 |
| | o No to Question 3.1 |

3.1 Has your agency taken action to promote integration of data from multiple sources?
- Yes. The agency has taken appropriate action to promote data integration.

3.1.a If yes or partial to Question 3.1, in what ways does your agency promote data integration from multiple sources?

The following items were selected from a picklist:
- Hosts a data sharing infrastructure where partners and/or data users can share and discover data.
- Develops a data integration toolkit or APIs to promote integration of agency data in external applications.
- Develops data integration processes to promote integration of non-agency data into applications.
- Provides data in openly standardized readable formats or as downloadable file packages.
- Develops data sharing agreements or Memoranda Of Agreement (MOA) with public and private partners for ingest or sharing of data.

3.2 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(3), "promote the integration of geospatial data from all sources."

The Department of Housing and Urban Development's Enterprise GIS Team maintains a publicly-facing open data site for the dissemination of agency relevant geospatial data. Data provided through this resource is available for download in a variety of machine readable formats and is likewise accessible via API. HUD also maintains an enterprise geocoding service solution which is utilized by approximately 26 of the agency's program areas. The solution processes roughly 350 million records annually and is made available to federal partners upon request. HUD's Office of Policy Development and Research leverages a support contract to assist in the operational processes required to derive geospatial information from a broad range of the agency's systems of record.
In addition, HUD participates in an Inter-Agency Agreement with the United Stated Postal Service (USPS) for the use of residential and commercial vacancy data.

759(a)(4) Ensure Records Retention Schedule for Geospatial Data

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Ensure that data information products and other records created in geospatial data and activities are included on agency record schedules that have been approved by the National Archives and Records Administration</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Agency Self-Assessment</strong></td>
<td>Fails to Meet Expectations</td>
</tr>
</tbody>
</table>
| **KEY to Self-Assessment**                                                      | • **Meets expectations** =  
  o Yes to Questions 4.1 and 4.2  
  • **Made progress toward expectations** =  
  o Yes or Partial to Questions 4.1 and 4.2 or  
  o No to either 4.1 or 4.2  
  • **Fails to meet expectations** =  
  o No to Questions 4.1 and 4.2 |

4.1 To ensure approved National Archives and Records Administration (NARA) schedules are in place, does the appraisal process for your agency to determine which data is archived include geospatial data?

- No. The agency does not have an archiving appraisal process for data information products and other records created in geospatial data and activities.

4.2 Are geospatial data assets included on agency record schedules?

- No. Agency record schedules are not inclusive of data information products and other records created in geospatial data and activities.

4.3 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(4), "ensure that data information products and other records created in geospatial data and activities are included on agency record schedules that have been approved by the National Archives and Records Administration."

HUD’s data management practices allow for the re-creation of previous datasets from the agency’s systems of record thereby obviating the need for a formal archive process specifically for geospatial data.
### 759(a)(5) Allocate Resources for Geospatial Data Management Responsibilities

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Agency Self-Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Allocate resources to fulfill the responsibilities of effective geospatial data collection, production, and stewardship with regard to related activities of the covered agency, and as necessary to support the activities of the Committee</td>
<td>Made Progress Towards Expectations</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>KEY to Self-Assessment</th>
<th>Made Progress Towards Expectations</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Meets expectations =</td>
<td>• Made progress toward expectations =</td>
</tr>
<tr>
<td>o Yes to Question 5.1</td>
<td>o Partial to Question 5.1</td>
</tr>
<tr>
<td>• Fails to meet expectations =</td>
<td>•</td>
</tr>
<tr>
<td>o No to Question 5.1</td>
<td></td>
</tr>
</tbody>
</table>

#### 5.1 Are adequate geospatial program resources (including full- or part-time federal employees or contractors) allocated to fulfill the responsibilities of effective geospatial data collection, production, and stewardship with regard to related activities of the covered agency, and as necessary to support the activities of the Committee?

**Clarifying text:** Analyses of the requirements for the GDA are ongoing and it is anticipated that agencies will answer based on currently understood or anticipated requirements. Additional details can be provided in the 5.2 Brief Summary and in your agency’s 2-page PDF.

- Partial

#### 5.2 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(5), "allocate resources to fulfill the responsibilities of effective geospatial data collection, production, and stewardship with regard to related activities of the covered agency, and as necessary to support the activities of the Committee."

Recent audits of HUD’s geospatial resources found that the agency lacked appropriate staff for day-to-day operations and maintenance; however, these assessments may not have considered contracted support in their assessment. Nevertheless, HUD remains focused on the recruitment and development of additional geospatial personnel for the agency's Enterprise GIS Team, the recently created Office of the Chief Data Officer, and regional field offices.
759(a)(6) Use Data Standards

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Agency Self-Assessment</th>
<th>Made Progress Towards Expectations</th>
</tr>
</thead>
</table>
| Use the geospatial data standards, including the standards for metadata for geospatial data, and other appropriate standards, including documenting geospatial data with the relevant metadata and making metadata available through the GeoPlatform | | • **Meets expectations** =
  - Yes to Questions 6.1, 6.2 and 6.3
  • **Made progress toward expectations** =
  - Any other combination of Yes, No, and Partial to Questions 6.1, 6.2, and 6.3
  • **Fails to meet expectations** =
  - No to Questions 6.1, 6.2, and 6.3 |

**KEY to Self-Assessment**

- **Meets expectations** =
  - Yes to Questions 6.1, 6.2 and 6.3
- **Made progress toward expectations** =
  - Any other combination of Yes, No, and Partial to Questions 6.1, 6.2, and 6.3
- **Fails to meet expectations** =
  - No to Questions 6.1, 6.2, and 6.3

6.1. Are defined data standards used in collecting, processing, and/or disseminating the data being addressed?

The following items were selected from a picklist:

- Yes. Eligible geospatial datasets use FGDC-endorsed data standards.

6.2 Does your agency maintain its metadata in an FGDC-endorsed, or ISO-compliant geospatial metadata standard format?

Clarifying text: Question does not include legacy datasets that are static and no longer modified or otherwise managed. Also, see the list of endorsed FGDC-endorsed standards [https://www.fgdc.gov/standards/](https://www.fgdc.gov/standards/).

The following items were selected from a picklist:

- Partial. Some eligible datasets have FGDC-endorsed, or current ISO-compliant geospatial metadata that needs to be reviewed or refreshed.

6.3 Is your agency geospatial metadata available through GeoPlatform.gov?

Clarifying Text: For the scope of the requirement, Section 758(b)(1)(A)(iv) provides for “including download access to all open geospatial data directly or indirectly collected by covered agencies” and Section 759(a)(6) requires that “metadata [be] available through the GeoPlatform.”

- Partial. Some metadata for some public datasets are available via GeoPlatform.gov.
6.4 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(6), "use the geospatial data standards, including the standards for metadata for geospatial data, and other appropriate standards, including documenting geospatial data with the relevant metadata and making metadata available through the GeoPlatform."

Efforts to develop and maintain FGDC and ISO-complaint metadata remain ongoing. Although all hosted services offered to the public include downloadable and machine readable data dictionaries, incorporation of FGDC and ISO-complaint metadata has proven problematic given the inherent constraints of commercial off-the-shelf (COTS) software used to publish hosted geospatial services. HUD anticipates alignment of its metadata standards with those of the FGDC in 2021.

759(a)(7) Support Coordination and Partnerships

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Meets Expectations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Coordinate and work in partnership with other Federal agencies, agencies of State, tribal, and local governments, institutions of higher education, and the private sector to efficiently and cost-effectively collect, integrate, maintain, disseminate, and preserve geospatial data, building upon existing non-federal geospatial data to the extent possible</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Agency Self-Assessment</th>
<th>Meets Expectations</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Meets expectations =</td>
<td></td>
</tr>
<tr>
<td>o Yes to Questions 7.1 and Yes or Not applicable to Question 7.2</td>
<td></td>
</tr>
<tr>
<td>• Made progress toward expectations =</td>
<td></td>
</tr>
<tr>
<td>o Any combination of Yes, Not applicable, Partial, or No to Questions 7.1 and 7.2</td>
<td></td>
</tr>
<tr>
<td>• Fails to meet expectations =</td>
<td></td>
</tr>
<tr>
<td>o No to Questions 7.1 and 7.2</td>
<td></td>
</tr>
</tbody>
</table>

7.1 Are there processes in place to ensure that, when appropriate, partners and stakeholders have visibility into agency geospatial data management activities (e.g., collection, integration, maintenance, dissemination and preservation)?

• Yes. There are processes in place for all agency mission areas.
7.1.a If yes or partial to Question 7.1, which external partners and stakeholders are involved in data management activities?

Clarifying text: The selection list provided was taken from the GDA Section 754(b)(C).

- Other federal agencies
- States
- Tribal governments
- Geospatial information user industries
- Nonprofit organizations
- Academia

7.1.b If yes or partial to Question 7.1, what processes are in place to ensure partners and stakeholders are involved?

Clarifying text: When answering this question think about activities such as using surveys, listening sessions, Request for Information, booths at stakeholder conferences.

- Federal Register Notices
- Memoranda of Understanding

7.2 Does your agency build upon existing non-federal geospatial data?

- Partial. Agency builds upon some existing non-federal geospatial data.

7.2.a If yes or partial to Question 7.2, what ways do you build upon existing non-federal geospatial data?

- Procurement/acquisition/grant
- Research partnership
- MOAs/data sharing agreements

7.3 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(7), "coordinate and work in partnership with other Federal agencies, agencies of State, tribal, and local governments, institutions of higher education, and the private sector to efficiently and cost-effectively collect, integrate, maintain, disseminate, and preserve geospatial data, building upon existing non-Federal geospatial data to the extent possible."

Many of HUD's geospatial datasets are derived through the acquisition of information provided by stewards outside the federal government. Some examples include: Low Income Housing Tax Credit Data which is collected and supplied by state governments; residential address data of subsidized housing provided by local, state, and regional housing authorities, multi-family site data provided by insured and assisted property owners, and local development activity provided to HUD via state and local entitlement communities.
759(a)(8) Promote Application of Geospatial Data Assets

| GDA Requirement | Use geospatial information to—
| | (A) make Federal geospatial information and services more useful to the public;
| | (B) enhance operations;
| | (C) support decision making; and
| | (D) enhance reporting to the public and to Congress; |

<table>
<thead>
<tr>
<th>Agency Self-Assessment</th>
<th>Meets Expectations</th>
</tr>
</thead>
</table>
| KEY to Self-Assessment | • Meets expectations =
| | o Yes to 8.1, 8.2 and 8.3
| | • Made progress toward expectations =
| | o Any combination of Yes, Partial and No to Questions 8.1, 8.2 and 8.3
| | • Fails to meet expectations =
| | o No to 8.1, 8.2 and 8.3 |

759(a)(8)(A) make Federal geospatial information and services more useful to the public;

8.1 Does your agency leverage geospatial information to make federal geospatial information and services more useful to the public?

- Yes

759(a)(8) (B) enhance operations; 759(a)(8) (C) support decision making

8.2 Does your agency leverage geospatial information to improve operations and decision-making?

- Yes. Agency broadly leverages geospatial information in operations improvements or decision-making.

759(a)(8) (D) enhance reporting to the public and to Congress

8.3 Does your agency leverage geospatial information to enhance reporting to the public or to Congress?

- Yes. Agency broadly leverages geospatial information to enhance public and Congressional reporting.
8.3.a If yes or partial, for which of these audiences does your agency leverage geospatial information to enhance reporting?

- Public reports (e.g., fact sheets, data briefs, Annual reports, other published Agency reports).
- Congressional Reports.
- Internal Agency and leadership plans, reports and communications.

8.4 Optional Question: You may provide up to 5 key examples and links that demonstrate how geospatial data assets are used, internally and externally, to make federal geospatial information and services more useful to the public; enhance operations; support decision making; and/or enhance reporting to the public and to Congress.

- Not applicable.

8.5 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(8), "use geospatial information to—

(A) make federal geospatial information and services more useful to the public;
(B) enhance operations;
(C) support decision making; and
(D) enhance reporting to the public and to Congress;"

The focus of HUD's mission, to create strong, sustainable, inclusive communities and quality affordable homes for all, remains inherently spatial in nature. Every home and community exists somewhere. HUD therefore remains wholly dependent on spatial information to describe, analyze, report on, and advocate for the nation's communities and the people that comprise them.

759(a)(9) Protection of Privacy and Confidentiality

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Protect personal privacy and maintain confidentiality in accordance with Federal policy and law</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agency Self-Assessment</td>
<td>Meets Expectations</td>
</tr>
</tbody>
</table>
| KEY to Self-Assessment | Meets expectations =  
  o Yes to Questions 9.1 and 9.2  
 Made progress toward expectations =  
  o Yes or Partial to Questions 9.1 or 9.2  
 Fails to meet expectations =  
  o No to Questions 9.1 or 9.2 |
9.1 Are agency Privacy Threshold Assessment or Privacy Impact Assessment (PTA/PIA) processes inclusive of your geospatial data?

Clarifying Text: The Privacy Threshold Assessment/Analysis would be the mechanism that agencies use to determine if PII is, or is not collected, and whether a Privacy Impact Assessment needs to be done for an information system.

- Yes. The agency's PTA/PIA processes are inclusive of all agency data.

9.2 Are the IT systems and applications that maintain and support your geospatial data covered by a current Authorization to Operate (ATO)?

- Yes. All agency geospatial data is housed in a system covered by a current ATO and is appropriately protected in accordance with applicable laws and regulations.

9.3 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(9), "protect personal privacy and maintain confidentiality in accordance with Federal policy and law."

HUD's geospatial data omits PII of any kind. Moreover, HUD prohibits the distribution of discreet address information from all enterprise applications as well as its Geospatial Storefront. Any dataset reporting an aggregation of discreet address locations (such as Housing Choice Vouchers relative to Census geography) are masked when the total number of locations reported falls below eleven locations.

759(a)(10) Declassified Data

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Participate in determining, when applicable, whether declassified data can contribute to and become a part of the National Spatial Data Infrastructure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agency Self-Assessment</td>
<td>Meets Expectations</td>
</tr>
</tbody>
</table>
| KEY to Self-Assessment | - Meets expectations =  
  o Yes or Not applicable to Question 10.1  
  - Fails to meet expectations =  
  o No to Question 10.1 |

10.1 If your Agency handles classified geospatial datasets, does it have a process to review declassified datasets for inclusion in the NSDI?

Clarifying text: Sharing standards-based data on the Internet using standard protocols and formats makes it part of the NSDI.

- Not applicable: The agency does not handle classified data.
10.2 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(10), "participate in determining, when applicable, whether declassified data can contribute to and become a part of the National Spatial Data Infrastructure."

Not applicable: The agency does not manage classified data.

759(a)(11) Non-Duplication of Data

<table>
<thead>
<tr>
<th><strong>GDA Requirement</strong></th>
<th>Search all sources, including the GeoPlatform, to determine if existing Federal, State, local, or private geospatial data meets the needs of the covered agency before expending funds for geospatial data collection</th>

| **KEY to Self-Assessment** | • **Meets expectations** =  
  o No to Question 11.1 or  
  o Yes to Questions 11.1 and 11.2 and all agency appropriate responses to Question 11.3  
• **Made progress toward expectations** =  
  o Yes to Question 11.1 and Partial or No to Question 11.2 and agency appropriate responses to Question 11.3  
• **Fails to meet expectations** =  
  o Yes to Question 11.1 and No to Question 11.2 and No **additional assessments are done** selected for Question 11.3 |

11.1 Has your agency expended funds for geospatial data collection for the reporting period?

**Clarifying text:** “Expended funds” may include grant distribution, agency collection, or procurement of data.

- Yes

11.2 As per **OMB Circular A-11 Guidance** (Section 25, Page 3), has your agency searched the **GeoPlatform Marketplace** prior to making planned geospatial data investments to determine if an existing source for that data is available and meets mission requirements?

- Yes. Agency has searched GeoPlatform Marketplace prior to all geospatial data investments.
11.3 Has your agency searched other sources to determine if data necessary to meet requirements already exists (either within or outside the agency) before collecting or acquiring new data?

The following items were selected from a picklist:

- Market research
- Cross-agency or partner coordination
- Expert consultation
- Database search

11.4 Optional Question: You may provide examples of cases where the agency did find existing data that met its needs or partnered on a joint data acquisition.

- Not applicable.

11.5 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(11), "Search all sources, including the GeoPlatform, to determine if existing Federal, State, local, or private geospatial data meets the needs of the covered agency before expending funds for geospatial data collection."

HUD purchases residential and commercial vacancy data through an inter-agency agreement with the USPS.

759(a)(12) Ensuring High-Quality Data

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>To the maximum extent practicable, ensure that a person receiving Federal funds for geospatial data collection provides high-quality data</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agency Self-Assessment</td>
<td>Meets Expectations</td>

<td><strong>Fails to meet expectations</strong> =</td>
</tr>
<tr>
<td></td>
<td>o Yes to Question 12.1 and <em>No official documented Quality Assurance/Quality Control (QA/QC) process is in place for acquisition of geospatial data selected for Question 12.2</em></td>
</tr>
</tbody>
</table>
12.1 Has your agency expended funds for geospatial data collection from non-federal sources during the reporting period?

**Clarifying text:** The requirement for “a person receiving Federal funds” has been interpreted to mean non-federal organizations or corporations who are, for example, contract or grant recipients.

- No. (Skip to 12.3)

12.2 What methods does your agency employ to ensure quality in geospatial data collected from non-federal sources?

The following items were selected from a picklist:

- Not applicable.

12.3 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(12), "to the maximum extent practicable, ensure that a person receiving Federal funds for geospatial data collection provides high-quality data."

HUD does not expend funds from parties outside the federal government for the purpose of geospatial data collection.

---

### 759(a)(13) Point of Contact

<table>
<thead>
<tr>
<th>GDA Requirement</th>
<th>Agency Self-Assessment</th>
<th>Meets Expectations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Appoint a contact to coordinate with the lead covered agencies for collection, acquisition, maintenance, and dissemination of the National Geospatial Data Asset data themes used by the covered agency</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**KEY to Self-Assessment**

- **Meets expectations** = 
  - Yes to Question 13.1
- **Fails to meet expectations** = 
  - No to Question 13.1

13.1 Has your agency appointed a POC to coordinate with the lead covered agencies for collection, acquisition, maintenance, and dissemination of the NGDA data themes used by the covered agency?

**Clarifying text:** OMB Circular A-16 may include additional guidance on covered agency responsibilities for theme coordination.

- Yes. An agency POC has been appointed.
13.2 Brief Summary (Limit 1000 characters, or approximately 150 words): Please provide a brief description of agency actions and accomplishments in addressing Sec. 759(a)(13), "appoint a contact to coordinate with the lead covered agencies for collection, acquisition, maintenance, and dissemination of the National Geospatial Data Asset data themes used by the covered agency."

HUD's Office of Policy Development and Research has appointed a member of its Enterprise GIS Team to serve as the agency point of contact to coordinate with the lead covered agencies for the collection, acquisition, maintenance, and dissemination of NGDA data themes used by the covered agency.
Appendix A: Survey Picklists

This appendix provides the full set of choices presented in the self-assessment survey as “check all that apply” responses used to generate this covered agency report.

---

i Question 2.1 Picklist
- Data is currently openly shared to the public.
- Data is currently shared on a limited basis with federal partners.
- Data is currently shared on a limited basis with non-federal users.
- No data is currently shared to other federal agencies or non-federal users. (Note: For some agencies, this may be an appropriate response).

ii Question 3.1.a. Picklist
- Hosts a data sharing infrastructure where partners and/or data users can share and discover data.
- Develops a data integration toolkit or APIs to promote integration of agency data in external applications.
- Develops data integration processes to promote integration of non-agency data into applications.
- Provides data in openly standardized readable formats or as downloadable file packages.
- Develops data sharing agreements or Memoranda Of Agreement (MOA) with public and private partners for ingest or sharing of data.
- Other (Textboxes provided)

iii Question 6.1 Picklist
- Yes. Eligible geospatial datasets use FGDC-endorsed data standards.
- Yes. Eligible geospatial datasets use data standards that comply with OMB Circular A-119.
- Partial. Some eligible geospatial datasets use FGDC-endorsed data standards.
- Partial. Some eligible geospatial datasets use data standards that comply with OMB Circular A-119.
- No. Eligible agency geospatial datasets do not use FGDC-endorsed or current ISO-compliant geospatial standards.

iv Question 6.2 Picklist
- Yes. Eligible non-legacy datasets have well maintained FGDC-endorsed or current ISO-compliant geospatial metadata.
- Partial. Some eligible datasets have well maintained FGDC-endorsed or current ISO-compliant geospatial metadata.
- Partial. Some eligible datasets have FGDC-endorsed or current ISO-compliant geospatial metadata, that needs to be reviewed or refreshed.
- No. Agency datasets do not use FGDC-endorsed or current ISO-compliant geospatial metadata standards.
**Question 11.3 Picklist**
- Market research
- Cross-agency or partner coordination
- Expert consultation
- Database search
- Agency follows a documented process or official policy
- No additional assessments are done
- Other (Textboxes provided)

**Question 12.2 Picklist**
- Evaluate data for quality prior to any acquisition.
- Geospatial data quality standards are specified in contract documents.
- Independent verification and validation (IV&V).
- Staff data experts review and approve geospatial data deliverables.
- Data standards are enforced through automated processes such as database controls or script tools.
- The agency acquires data from another federal agency that is responsible for QA/QC.
- No official documented QA/QC process is in place for acquisition of geospatial data.
- Other (Textboxes provided).
