Introduction

The Geospatial Data Act of 2018 (GDA) was signed into law on October 5, 2018. The GDA was included as a component of the FAA Reauthorization Act (H.R. 302, P.L. 115-254). The GDA is now in [U.S. Code, Title 43 – Public Lands, Chapter 46: GEOSPATIAL DATA](#).¹

The GDA Section 2805(b)(3)(E)(I) requires annual performance reports to be submitted to the Federal Geographic Data Committee (FGDC) that document “the activities relating to and implementation of the National Geospatial Data Asset [NGDA] data theme, including progress in achieving the requirements under subparagraphs (A), (B), (C), and (D)” of Section 2805(b)(3).

This Lead Covered Agency NGDA Theme Annual Performance Report (LCA NGDA Theme Report) covers the Fiscal Year 2023 (FY2023), October 1, 2022 through September 30, 2023. The report provides an update on progress made at the NGDA Portfolio and FGDC agency level in support of meeting GDA requirements. This is the fourth annual report which is based on a template and survey to facilitate consistency across the FGDC NGDA Themes. As per the GDA, a summary and evaluation of the progress to achieve the requirements will be generated by FGDC and will be provided to the National Geospatial Advisory Committee (NGAC) for comment. The FGDC summary is required to include a rating for each responsibility of "meets expectations," "made progress toward expectations," or "fails to meet expectations." These ratings are included in this report and are used to generate part of the annual FGDC Summary Report. The summary report along with NGAC comments are included in the biennial FGDC Report to Congress. This and other required reports and information are available online via the [FGDC GDA pages](#).²

The FY2023 LCA NGDA Theme annual report continues to use the GDA definition for NGDA data theme as the foundation for reporting compliance *for the data within the theme*. From the GDA definitions, NGDA data theme “means the NGDA core geospatial datasets (including electronic records and coordinates) relating to a topic or subject designated under Section 2805.”

Executive Summary

This fourth annual FGDC NGDA Theme report provides insights into cross-cutting FGDC portfolio-level activities and theme-specific agency-level activities that will document progress in meeting GDA requirements.

At the theme level, this report provides updates to summaries and information for ongoing processes, procedures, and actions within agencies that manage NGDA datasets, that were provided in previous annual reports.

At the portfolio level, this report highlights continued efforts across the FGDC agencies and the NGDA themes to evaluate the requirements of the GDA in the context of the goals and objectives of the [National Spatial Data Infrastructure \(NSDI\) Strategic Plan](#).³ Based on an emerging cross-agency understanding of these requirements, the FGDC NGDA Theme community is undertaking efforts to establish governance processes that build on accomplishments, provide value, and ensure efficiency. In alignment with GDA requirements, the NGDA Theme Leads developed an NGDA Theme Strategic Plan template which was approved by the FGDC Steering Committee in July 2023. The template can be tailored to each theme with goals and objectives that are cross walked with all GDA requirements and the NSDI Strategic Plan. This template provides flexibility and allows agencies that manage NGDA data to

identify actions and accomplishments that align with the established goals, objectives, and anticipated outcomes, while being sensitive to technological, economic, and organizational constraints and opportunities of the agencies managing NGDA data. NGDA Theme Leads will develop and finalize their individual theme strategic plans by the end of FY2024.

The efforts documented in this report reflect that all FGDC NGDA Themes are making progress towards meeting GDA requirements.

Official Theme Related Information

As per the OMB Circular A-16 Supplemental Guidance (A-16 Guidance), official theme related information includes designated points of contact for NGDA Portfolio management, including Theme Leads and Executive Champions, and the official list of NGDA datasets. As further described in the sections below, this information is maintained on the [GeoPlatform](#)⁴ [NGDA Portfolio Community](#)⁵ site.

NGDA Theme Points of Contact

Reference: [USC 43 Sec 2805\(b\)\(3\)\(E\)\(i\)](#)

Section 2805(b)(3)(E)(i) requires lead covered agencies to “designate a point of contact within the lead covered agency who shall be responsible for developing, maintaining, coordination relating to, and disseminating data using the GeoPlatform” as part of administering the NGDA theme.

In accordance with the A-16 Guidance, NGDA theme personnel play an ongoing, vital role in the operation and maintenance of a theme. They are individuals who provide interdepartmental leadership and coordination at the NGDA theme level and work with NGDA dataset managers to facilitate portfolio development including activities associated with standards and guidance, among other things.

Traditionally, these roles have been coordinated through lead covered agencies with the FGDC Office of the Secretariat and the NGDA theme lead assuming a majority of NGDA theme responsibilities. Transitioning to meet specific GDA responsibilities provides opportunities for lead covered agencies to designate specific points of contact to coordinate an expanding portfolio of datasets across the NGDA theme and for greater dissemination of data through the GeoPlatform.

Theme and agency points of contact provided in Table 1 below are maintained to meet requirements from the [A-16 Supplemental Guidance Roles and Responsibilities](#).⁶ This information is kept up-to-date in the [NGDA Portfolio Community](#). From the NGDA Portfolio Community page, the NGDA Theme Leads and NGDA Theme Executive Champions lists are found on the [Contacts](#)⁷ page.

Address Theme Contacts	
Theme Lead(s):	Matt Zimolzak, U.S. Department of Commerce, U.S. Census Bureau Steve Lewis, U.S. Department of Transportation
Executive Theme Champion(s):	Deirdre Dalpiaz Bishop, U.S. Department of Commerce, U.S. Census Bureau Daniel Morgan, U.S. Department of Transportation

Table 1. Theme and Lead Covered Agency Points of Contact Involved in Theme Management.

NGDA Theme Datasets

The NGDA datasets and the agencies listed in Table 2 are provided as the official list of NGDA that currently populate the Address Theme. If the theme includes NGDA datasets managed by non-covered agencies, they are shown in bold. Support for GDA requirements by these non-covered agencies is very important to the success of the themes. The official list of NGDA Portfolio Datasets is maintained on the GeoPlatform in the [NGDA Portfolio Community](#). Each NGDA dataset also has a unique value assigned, called an NGDAID, that allows the dataset to be tracked throughout its lifecycle.

NGDAID	Address Theme NGDA Datasets	Agency
196	National Address Database (NAD)	U.S. Department of Transportation

Table 2. NGDA Theme Datasets.

Meeting General Responsibilities – USC 43 Sec 2805(b)(2)

Reference: [USC 43 Sec 2805\(b\)\(2\)](#)

How is the Lead Covered Agency(ies) participating in ensuring the coordinated management of the Theme? (Select all that apply - see *Appendix A for the complete list of optional responses*)

- Agency participated in cross-agency activities related to the development of the Theme Strategic Plan Template
- Theme Lead(s) attend NGDA Theme Community Meetings
- Theme Lead(s) participate in GDA Working Group meetings
- Theme Leads(s) review the outcomes from GDA Working Group meetings and provide feedback on approaches for GDA compliance
- Theme Lead(s) coordinate GDA compliance activities with Theme personnel
- Theme Lead(s) coordinate changes to the Portfolio inventory for Steering Committee approval
- Theme Lead(s) coordinate Theme Hub Sites on the GeoPlatform with established points of contact (e.g., Site Maintainers, site editors)
- Theme Lead(s) update Dataset Managers and other points of contact (e.g., metadata POC)
- Theme Lead(s) evaluate standards applicable to the Portfolio inventory
- Theme Lead(s) communicate new and ongoing Portfolio Management activities and priorities with Dataset Managers in the Theme
- Steering Committee members coordinate with the Theme

Managing Theme-Related Content on GeoPlatform

During FY2023, the NGDA Themes transitioned from legacy GeoPlatform Theme sites to new [Hub-based Theme sites](#).⁸ As part of the transition, the themes established by consensus, the minimum required site content. All eighteen themes were transitioned and updated to reflect this minimum content requirement. Individual themes have the flexibility to publicly display and manage additional information from a variety of sources related to their theme. The new Hub sites provide end users, stakeholders, and partners with a place to find consistent theme-related information and access to NGDA datasets and services.

Address Theme Progress Toward Meeting Requirements

Background

This section provides Theme-related updates to information provided in previous annual reports and designates the Lead Covered Agency self-assessment for each of the four GDA NGDA Data Theme Requirements.

A. Geospatial Data Standards

The following table describes the GDA requirements for Section 2805(b)(3)(A) pertaining to geospatial data standards, and the Lead Covered Agency’s self-assessment for meeting those requirements.

GDA Requirement	<p>USC 43 Sec 2805(b)(3)(A) – Provide leadership and facilitate the development and implementation of geospatial data standards for the National Geospatial Data Asset data theme, with a particular emphasis on a data content standard for the National Geospatial Data Asset data theme, including by—</p> <ul style="list-style-type: none"> i. assessing existing standards; ii. identifying anticipated or needed data standards; and iii. developing a plan to originate and implement needed standards with relevant community and international practices— <ul style="list-style-type: none"> I. in accordance with Office of Management and Budget Circular A– 119, or any successor thereto; and II. consistent with or as a part of the plan described in subparagraph (B);
Lead Covered Agency Self-Assessment	Made Progress Toward Expectations

Note: The lead covered agency reports that no change was made to the self-assessment for this requirement from the prior year. FGDC efforts to address Sec 2805(b)(3)(A) are summarized under the “FGDC Portfolio-Level Progress Toward Meeting GDA NGDA Data Theme Requirements” section below.

B. Nationwide Population of the Data Theme

The following table describes the GDA requirements for Section 2805(b)(3)(B) pertaining to a plan for nationwide population of the data theme, and the Lead Covered Agency’s self-assessment for meeting those requirements.

GDA Requirement	<p>USC 43 Sec 2805(b)(3)(B)– provide leadership and facilitate the development and implementation of a plan for nationwide population of the National Geospatial Data Asset data theme, which shall—</p> <ul style="list-style-type: none"> (i) include developing partnership programs with States, Indian tribes, institutions of higher education, private sector entities, other Federal agencies, and local governments; (ii) meet the needs of users of geospatial data; (iii) address human and financial resource needs; (iv) identify needs relating to standards, metadata for geospatial data within the National Geospatial Data Asset data theme, and the GeoPlatform; and (v) expedite the development of necessary National Geospatial Data Asset data themes;
Lead Covered Agency Self-Assessment	Made Progress Toward Expectations

Note: The lead covered agency reports that no change was made to the self-assessment for this requirement from the prior year. FGDC efforts to address Sec 2805(b)(3)(B) are summarized under the “FGDC Portfolio-Level Progress Toward Meeting GDA NGDA Data Theme Requirements” section below.

C. Establish Goals That Support the NSDI Strategic Plan

The following table describes the GDA requirements for Section 2805(b)(3)(C) pertaining to establishing goals that support the NSDI Strategic Plan, and the Lead Covered Agency’s self-assessment for meeting those requirements.

GDA Requirement	USC 43 Sec 2805(b)(3)(C) – establish goals that support the strategic plan for the National Spatial Data Infrastructure prepared under section 2804(c);
Lead Covered Agency Self-Assessment	Made Progress Toward Expectations

References: [NSDI Strategic Plan 2021-2024](#)

Note: The lead covered agency reports that no change was made to the self-assessment for this requirement from the prior year. FGDC efforts to address Sec 2805(b)(3)(C) are summarized under the “FGDC Portfolio-Level Progress Toward Meeting GDA NGDA Data Theme Requirements” section below.

D. Addressing User Needs

The following table describes the GDA requirements for Section 2805(b)(3)(D) pertaining to addressing user needs, and the Lead Covered Agency’s self-assessment for meeting those requirements.

GDA Requirement	USC 43 Sec 2805(b)(3)(D) – as necessary, collect and analyze information from users of geospatial data within the National Geospatial Data Asset data theme regarding the needs of the users for geospatial data and incorporate the needs of users in strategies relating to the National Geospatial Data Asset data theme;
Lead Covered Agency Self-Assessment	Made Progress Toward Expectations

Note: The lead covered agency reports that no change was made to the self-assessment for this requirement from the prior year. FGDC efforts to address Sec 2805(b)(3)(D) are summarized under the “FGDC Portfolio-Level Progress Toward Meeting GDA NGDA Data Theme Requirements” section below.

FGDC Portfolio-Level Progress Toward Meeting GDA NGDA Data Theme Requirements

Background

This section highlights the actions that reflect FGDC Portfolio-level progress towards meeting GDA requirements.

Since the passage of the GDA, FGDC agencies and the Theme Leads have continued to evaluate options to consistently document progress and streamline reporting. In alignment with GDA requirements, the NGDA themes completed development of an NGDA Theme Strategic Plan template in June 2023, based on an existing strategic plan developed for the Transportation Theme. The template was approved by the FGDC Steering Committee for use by all themes on June 30, 2023, and a timeline for completion by the end of FY2024 was established. The template provides a consistent framework for agencies to develop goals, objectives, and actions that directly align with GDA requirements. Theme annual reports will highlight agency actions and accomplishments associated with the strategic plan in support of standards, nationwide population of NGDA datasets, strategic planning that aligns with the NSDI Strategic Plan and other guidance, and meeting user needs. Additional details for each of the four GDA NGDA Data Theme Requirements are included below.

A. Geospatial Data Standards

The FGDC is the lead entity in the executive branch of government for the development, implementation, and review of policies, practices, and standards relating to geospatial data. The GDA describes responsibilities related to geospatial standards for the FGDC and the agencies covered by the law (covered agencies). These responsibilities are reinforced by Office of Management and Budget Circular A-16 and OMB Circular A-119 (development and use of voluntary consensus standards).

The FGDC Executive Committee has established a Standards Task Team to evaluate the requirements, options, processes, resources, and decision structure required to establish an operational and sustainable FGDC standards process. This will include evaluating the FGDC's roles and responsibilities in geospatial standards with those of other standards making bodies, non-Federal participation, and considerations for standards supporting the National Spatial Data Infrastructure (NSDI).

The Executive Committee Standards Task Team is currently developing recommendations to update the FGDC's standards management process and will recommend a path forward for the FGDC. Refer to the FGDC Standards webpage (<https://www.fgdc.gov/standards>) for additional information.

B. Nationwide Population of NGDA Datasets

This section of the GDA calls on the FGDC agencies to “provide leadership and facilitate the development and implementation of a plan for nationwide population of the National Geospatial Data Asset data theme.” FGDC agencies evaluate and manage NGDA core datasets and other geospatial data to meet mission requirements and to address priority needs of the agency and the nation. The approved strategic plan template incorporates ongoing agency efforts to establish partnerships, conduct requirements and user needs analysis, identify options for appropriate human and financial resourcing,

and identify needs relating to standards for NGDA datasets in support of nationwide population of priority geospatial datasets.

In accordance with the GDA definition of NGDA data theme, the NGDA Theme Strategic Plan template will allow theme plans to focus on nationwide population of the core datasets within the theme and allow agencies to document, provide citations to, and report on efforts that facilitate meeting this requirement. NGDA Theme Strategic Plans covering the period from 2025-2027 will be due by the end of FY2024. Once completed, the strategic plans will be published on the GeoPlatform Theme sites.

C. Establish Goals That Support the NSDI Strategic Plan

The NSDI mission is to enable a “national network of geospatial resources that seamlessly integrate location-based information to serve the needs of the Nation and wider global interests.” The FGDC and the geospatial community have partnered for decades in building the National Spatial Data Infrastructure. Through this collaboration and modernization of geospatial data resources on the internet, combined with advances in technology and availability of mobile devices, situational awareness has increased. Having geospatial data and information available on demand for a wide variety of applications has become an expectation for most users. The vision of the NSDI Strategic Plan 2021-2024 of a “geo-enabled Nation and world for place-based decision making” is to support efficient resource allocation and provide a platform for partnerships to support high quality data. The FGDC is developing a new NSDI Strategic Plan which is scheduled to be finalized by the end of FY2024. The goals of the Theme Strategic Plans will subsequently be revised based on the new NSDI Strategic Plan.

The NGDA Theme Strategic Plan template described in the “Background” section above will allow agencies to identify actions and accomplishments that align with mission requirements, and support implementation of the NSDI Strategic Plan and its goals and objectives. For the NGDA portfolio, the NSDI Strategic Plan 2021-2024 objectives include efforts to: 1) streamline portfolio management practices and establish standards for NGDA themes and associated datasets, 2) develop common approaches to implement data acquisition and lifecycle management strategies, 3) advance the practice of integrating government and nongovernment data into national datasets, as necessary and 4) ensure that geospatial and other meaningful data can be easily integrated and used by stakeholders and the public.

D. Addressing User Needs

The NGDA Theme Strategic Plan (planned publication at the end of FY 2024) will identify the needs of users related to NGDA datasets within the Theme and provide strategies to meet those needs. Additionally, the GeoPlatform offers open geospatial hosting and services for US federal agencies with geospatial data assets to address the needs of a diverse user community, including government, non-government, and public users. Each NGDA Theme has a site within the GeoPlatform that hosts the NGDA datasets. These Theme sites, along with the GeoPlatform, provide access to open geospatial data assets including metadata, services, applications, and tools for an open-source geospatial suite of capabilities. These capabilities are consistent with the 'Findability, Accessibility, Interoperability, and Reuse (FAIR) Guiding Principles for scientific data management and stewardship'⁹ as part of meeting user needs. Through ongoing GeoPlatform modernization and FGDC efforts to improve and enhance NGDA metadata and services, users have access to analysis-ready data to meet their geospatial analytical needs.

Appendix A: Survey Picklist

This appendix provides the full set of available choices presented for the Meeting General Responsibilities – USC Sec.2805(b)(2) question.

How is the Lead Covered Agency(ies) participating in ensuring the coordinated management of the Theme? (Select all that apply)

- Agency participated in cross-agency activities related to the development of the Theme Strategic Plan Template
- Theme Executive Champion(s) attend NGDA Theme Community Meetings
- Theme Lead(s) attend NGDA Theme Community Meetings
- Theme Lead(s) participate in GDA Working Group meetings
- Theme Leads(s) review the outcomes from GDA Working Group meetings and provide feedback on approaches for GDA compliance
- Theme Lead(s) coordinate GDA compliance activities with Theme personnel
- Theme Lead(s) coordinate changes to the Portfolio inventory for Steering Committee approval
- Theme Lead(s) update Dataset Managers and other points of contact (e.g., metadata POC)
- Theme Lead(s) coordinate Theme Hub Sites on the GeoPlatform with established points of contact (e.g., Site Maintainers, site editors)
- Theme Lead(s) evaluate standards applicable to the Portfolio inventory
- Theme Lead(s) communicate new and ongoing Portfolio Management activities and priorities with Dataset Managers in the Theme
- Steering Committee members coordinate with the Theme
- No participation in ensuring coordinated management of the Theme
- Other [Textbox provided]

Appendix B: Brief Summary

The following summary provides details on accomplishments the Address Theme made in FY2023 in meeting the GDA requirements under USC 43 Sections 2805(b)(3)(A)-(D).

Geospatial Data Standards

The Census Bureau licenses 43 ANSI/ISO Standards. This is an increase of 20 licenses compared to FY2022, including four new licenses specific to address data.

The Census Bureau and Department of Transportation (DOT) lead ongoing efforts in FY23 to define National Address Database (NAD) Content Domains of Values (DoV) for address components, through the subject matter expertise of the members of the NAD Workflow Subgroup, who are in the process of preparing a matrix of DoV for a number of published address standards (e.g., FGDC, NENA, etc.) and a selection of state level partners (e.g., Minnesota, North Carolina, Virginia, etc.). The intent is to complete this work in FY24 in collaboration with the Content Subgroup and utilize the DoV to further develop and refine partner address aggregation workflow models.

Nationwide Population of the Data Theme

The NAD is a true partnership effort between the federal government and authoritative address data providers from tribal, state, and local governments. Many of these partners actively participate in the FGDC Address Subcommittee, and in turn, DOT and the Census Bureau participate in the NSGIC Address and Transportation Committee. Both committees are dedicated to growing the NAD. Google is a private sector partner and ingests each release of the NAD to enhance its address data. More information on NAD partners can be found here: <https://www.transportation.gov/gis/national-address-database>.

Over the course of FY2023, the NAD grew by 8.7 million address points. Much of this growth came from the addition of new partners: 3 at the state level (i.e., Illinois, Oklahoma and Nebraska), 5 at the county level, and 1 naval installation.

Establish Goals That Support the NSDI Strategic Plan

FY2023 actions and accomplishments are described below.

Goal 1—Govern and Manage Geospatial Data

- Participate in the Commerce Geospatial Working Group (CGWG) to advise the Senior Agency Official for Geospatial Information (SAOGI) on the priorities of the Department of Commerce geospatial community relating to NGDAs. In FY2023, the Census Bureau Address Theme Co-Lead participated in the CGWG and Commerce Geospatial Standards Users Group (CGSUG) meetings.
- Follow developments in Standards implementation through participation in the cross-bureau initiatives to enable knowledge-sharing. In FY2023, the Census Bureau Address Theme Co-Lead participated in CGSUG meetings where information on geospatial standards for NGDAs was shared.

Goal 2—Expand NGDA Maturity, Acquisition, and Sources to ensure that NGDAs are Findable, Accessible, Interoperable, and Reusable (FAIR principles):

- In FY2023, the Address Theme maintained progress in meeting some FAIR principles for metadata, including NGDA (i.e., the NAD) registration on a searchable resource (GeoPlatform) and adheres to the ISO 19115 Geographic Information – Metadata Standard. Additional progress in meeting FAIR principles includes the NGDA using well-known and sustainable formats, including both ESRI File Geodatabase and flat, ASCII text file formats, available on the DOTs NAD download page:

<https://www.transportation.gov/gis/national-address-database/national-address-database-nad-disclaimer>.

- The NAD is also available as a Web Feature Service (WFS):

https://services.arcgis.com/xOi1kZal0eWDREZv/ArcGIS/rest/services/Address_Points_from_National_Address_Database/FeatureServer/0

- Additionally, DOT completed and published the updated NAD Schema, Version 202304, in April 2023. This new schema reflects updates to NAD content described in the Content Requirements for the National Address Database (NAD), August 2022, and is available here:

https://www.transportation.gov/sites/dot.gov/files/2023-07/NAD_Schema_202304.pdf

- A blank, ESRI File Geodatabase reflecting the NAD Schema 202304 file layout is made available to partners to aid the translation of their address data to the NAD Schema 202304, and is available here:

https://nationaladdressdata.s3.amazonaws.com/NAD_Template_202310.zip

- This achievement represents the successful completion one of the Address Theme’s FY2023 goals.
- Maintain data licensing agreement and standards portal for forty-three (43) ISO geospatial standards with American National Standardization Institute (ANSI). Data licensing agreement for forty-three (43) ISO geospatial standards were added or renewed in FY2023, including four new address standards, and is available on Standards Connect.

Goal 3—Ensure Open Standards-Based Interoperability to Enable Geospatial Shared Services

- In FY2023, the quarterly harvest of metadata at DOT through industry-standard formats on Data.gov ensured open, online access to the current NGDA (i.e., NAD).

Goal 4—Enable and Promote Collaborative Governance and Partnerships to Meet National Needs, Priorities, and Circumstances

- In FY2023, the Executive Champion and Theme Co-Leads for the Address Theme participated in the FGDC Steering Committee, Theme Strategic Plan Working Group, NGDA Theme Lead Community, and Address Theme Subcommittee and associated subgroups.
- The Census Bureau and the Department of Housing and Urban Development collaborated on a problem statement for The Opportunity Project Summer 2022 Sprints – Transforming Local Addressing in Puerto Rico. The vision for the effort, which was completed in December 2022, was to provide momentum for Puerto Rico municipal governments to continue their efforts to

fill in locatable address and street name gaps, standardize and openly share address information, and develop best practices to build an address data infrastructure that will advance equity and benefit communities.

- The Census Bureau Co-Theme Lead for the FGDC Address Theme and other Census Address Subcommittee members participate in the monthly meetings of the Puerto Rico Geospatial Data Group. This group facilitates information sharing with government and non-government Puerto Rico geospatial stakeholders in support of the Department of Commerce’s Economic Dialogue.
- In FY2023, DOT, supported by the Census Bureau, successfully engaged with the United States Postal Service (USPS) to obtain access to an existing data file, including ZIP Code and ZIP+4 records appended to matched NAD Address records, which can help both users and partners leverage address records for enhanced mailing use cases, and for partners to help improve their own ZIP Code data. This achievement represents the successful completion one of the Address Theme’s FY2023 goals. Engagement and discussions with the USPS continue to further refine the product.
- The Address Subcommittee successfully integrated subject matter experts and new partners from the 10x Program, which is a technology investment fund to help improve government service delivery. They are currently working on a project to improve government digital services in the US Territories, which, when complete, will help benefit the NAD and can help inform ongoing or other addressing efforts for the Address Subcommittee membership.

Addressing User Needs

DOT provides an email address for user feedback, nad@dot.gov, on its NAD webpage, <https://www.transportation.gov/gis/national-address-database/national-address-database-0>. Many NAD stakeholders participate in the FGDC Address Subcommittee and have been involved in the Content, Workflow, FGDC Address Standard Maintenance, Address Theme Strategic Planning and NAD Strategy subgroups, expressing their input and opinions on a variety of topics, including their own user needs.

Use of the NAD WFS grew steadily over FY2023. For the year, the WFS received more than 3.6 million requests, which averaged to almost 10,000 requests per day.
