The **GIS Inventory** is a tool for the entire GIS Community.

Delaware

Welcome to the GIS Inventory.

Metadata Publication in the National GIS Inventory System (RAMONA)

What is the GIS Inventory ? (<http://gisinventory.net>)

- Repository of metadata maintained by the National States Geographic Information Council (NSGIC)
- Primary purpose
 - To track geographic data availability
 - Status of Geographic Information Systems in state and local governments
 - Directory of GIS state and local contacts

Metadata Publication in the National GIS Inventory System (RAMONA)

- Data.gov is the home of the U.S. Government's open data.
- GISInventory.net is one of the organizations that are part of the data.gov federal site.
- Miami-Dade County, as part of the GISInventory.net is published in data.gov

Metadata Publication in the National GIS Inventory System (RAMONA)

- Functions available to users
- Search by:
 - Data Name (ex: hospital)
 - Location (ex: Miami-Dade)
 - Combined searches (ex: Data name + Location)
 - Publisher name (ex: Ivelisse Torres)

Advanced Searches

- Layer category (ex: planning/cadastre)
- Progress (Ex: Complete)
- Publication date (From/To date) (ex: 2012/2014)

Metadata Publication in the National GIS Inventory System (RAMONA)

- Search by Status Map ([Miami-Dade, Zoning](#))
- Search Cadastral data ([Zoom to area](#))
- Search in the Directory of Users
 - People by names (Ex: [Grassi](#))
 - By location (Ex: [zip code, miles radius](#))
 - By Application Area (Ex: [GIS Mapping](#))
- [Additional Public Safety GIS Resources](#)

Metadata Publication in the National GIS Inventory System (RAMONA)

Registration of GIS managers

- Six GIS managers were registered in the system
- A total of 253 layers were successfully published

Metadata Publication in the National GIS Inventory System (RAMONA)

Plans for the future

- Creation of pending metadata
- Enforcement of standards
- Introduction of ISO standards
- Continue metadata publication in RAMONA
- Train users in the use of the system
- <http://gisinventory.net/video-guide-to-basic-functions>

Questions???

Thank you!
