3:00 – 3:10 **Welcome and Updates** – Jennifer Carlino, FGDC Metadata Coordinator

3:10 – 4:20 **FGDC's Service Status Checker**

Presenter: Michelle Anthony, U.S. Geological Survey (USGS) Contract Support
Earth Resources Observation and Science (EROS) Center

Abstract: The Federal Geographic Data Committee (FGDC) provides a Service Status Checker (SSC) web service to validate, test and score geospatial web services. The SSC returns a set of summary and test diagnostic information about the tests performed on each service, which can monitor a majority of Open Geospatial Consortium (OGC) service types. Users can receive both email reports that describe the overall status of services and email alerts when services are down. The web service performs health tests on geospatial services that provide access to metadata and data.

4:20 Discussion and Wrap Up

4:30 Adjourn

Please join us for the next ISO Forum meeting on Wednesday August 10, 2016 at 3 ET.
