

ISO Geospatial Metadata Summit

Purpose

Engage federal and non-federal National Spatial Data Infrastructure (NSDI) stakeholders in ISO geospatial metadata implementation.

Objectives

To improve geospatial data and services discovery and use and build upon previous FGDC sponsored Metadata Workshops efforts to:

- Identify ISO implementation issues and develop recommendations for next steps
- Promote Geospatial Platform capabilities to support metadata enhancement
- Engage participation in ISO metadata planning, policies, tools, and, outreach

Expected Outcomes:

- Establishment of program activities by the Metadata Working Group, FGDC member agencies, and NSDI Stakeholders to implement recommendations
- Improved leveraging of the Geospatial Platform to access data and services using ISO metadata standards
- Increase in the quality and number of ISO geospatial metadata records published to Data.gov
