- [Supporting information for the timeline/next steps]

Milestone	Date
Draft Strategic Plan Review / Support	Fall 2023 / 2024
2023 Geo-Competitiveness Paper: Finalize Bring for Approval	Spring 2024, Next Public Meeting
Prioritize / Relate / Engage / Act Across Discussion Topics	2024

NGAC NSDI Subcommittee Update – Discussion Highlights

- **OMB participation** in FGDC, NGAC
- **Resource / staffing issues at FGDC OS** – impactful NSDI for key use cases / economy, resilience + meet criteria of GDA,
- **NSDI Communication campaign/resources/branding** guide to declare that ***we have an NSDI (!)*** and how we all relate to it? NSDI is the defacto data foundation for the nation...personas / use cases who is the NSDI. It's a process, not an event...keeps evolving. 'N' in NSDI/NGAC is intentionally National not Federal...encompasses both top down and bottom up data provision strategies. What is NSDI scope? Engage with profesional organizations to energize campaign
- **Enhanced strategy for discovery**
 - Improve core search engine discovery for NGDA layers and other federal information products (SEO + Prioritization)
 - metadata for Users and AI tools
- **Refocus on key national data layers:** completing / enhancing – (grand bargain)
 - Core transactional/actional datasets: addresses, parcels, boundaries, roads (Bottom Up)
 - Core reference datasets: aerial, lidar (Top Down)
- Implementation plan: **identify short term successes**, their resource requirements, and barrier...
 - Revisit past recommendations and evaluate progress
- **Explore 'authoritative'** designation (define, guidance, etc)
- Further connect with federal CIO / CDO community
- Object storage for information products (archiving)

Interface with FAIR and Data Standards, GDA GeoPlatform topics
