Tribal Consultation and Comment

The meaningful input of Alaska Native Tribes and Alaska Native Corporations is of critical importance to the supplemental EIS. Therefore, and as expressed in Executive Order 13175, "Consultation and Coordination with Indian Tribal Governments," the Federal officials that have been delegated authority by the Secretary are committed to honoring the unique government-to-government political relationship that exists between the Federal Government and federally recognized Tribes. Consultation with Alaska Native Corporations is based on Public Law 108-199, div. H, sec. 161, January 23, 2004, 118 Stat. 452, as amended by Public Law 108-447, div. H, title V, sec. 518, December 8, 2004, 118 Stat. 3267, which provides that:

"The Director of the Office of Management and Budget and all Federal agencies shall hereafter consult with Alaska Native corporations on the same basis as Indian Tribes under Executive Order No. 13175." FWS will hold individual consultation meetings upon request. The Secretary of the Interior will consider Alaska Native Tribes' and Alaska Native Corporations' information, input, and recommendations, and address their concerns as much as practicable.

Shannon Estenoz,

Assistant Secretary for Fish and Wildlife and Parks.

Purpose and Need for the Planning Effort

The purpose of the Newcastle and Nebraska RMPs/EIS is to provide a comprehensive framework to guide management of BLM-administered surface land in the planning area. The RMPs/EIS will incorporate new data, address land use issues and conflicts, and specify where and under what circumstances activities will be allowed on BLM-administered surface lands. The objectives, land use allocations, and management decisions will be based on the principals of multiple use and sustained yield, except where a tract of such public land has been dedicated to specific uses according to another provision of law. All management direction must meet the objectives of the BLM's multiple use management
