# A Little History....

## **The Need for a National Address Database**

### **A Report Submitted by the National Geospatial Advisory Committee December 2012**

*The FGDC is requesting that NGAC develop a white paper addressing the following points:*

- 1. The need for a National Address Database and the benefits and potential savings and efficiencies that will be realized*
- 2. Potential concerns about a National Address Database, including privacy issues*
- 3. Possible approaches for development of a National Address Database, including the roles of Federal, State, local, and Tribal governments, commercial partners, as well as other stakeholders*

---

# Current Plans

- Position paper that builds a business case for the NSDI by identifying compelling use cases demonstrating the value and utility of a National Address Database.
- Examine the potential relationship between a National Address Database and National Parcel Data and identify possible opportunities to coordinate and leverage the two efforts.

# Current Use Cases
