

# National Address Database Update

*National Geospatial Advisory Committee*

*June 26, 2018*

**Presented by**

**Steve Lewis, U.S Department of Transportation**

U.S. Department of Transportation  
Office of Chief Information Officer

# National Address Database

## Status by State as of July 30th, 2016

# Version 1 is Available!

---

- Data made available on DOI supplied Amazon S3 bucket in March 2018
  - Initially advertised minimally
  - Advertised from DOT's website ([www.transportation.gov/NAD](http://www.transportation.gov/NAD)) on April 28,2018
  - Approximately 36 million records
- ESRI file geodatabase format
- Future releases will also include export from Postgres
- Next release soon (maybe)

# We have customers!

Month	Downloads
March	3
April	31
May	142
June (first half)	54

# Good News and Bad News

---

- Good News – NHTSA was pleased with our progress and has agreed to fund the ETL Developer for another year
- Bad News – NHTSA funding is not available until 10/1 and the original contract PoP ended yesterday
  - Searching for a small amount of funding to bridge the gap between now and 10/1
  - If no funding is available, the NAD will be in “stop work” mode until October

# Focus for the Next Year

---

- Continue to recruit/add new states, but have we reached the ceiling?
- Develop update procedures for existing partner states, including transactional updates
- Work with the GeoPlatform team to develop a collaboration site
