

Presentation for the National Geospatial Advisory Committee Deirdre Dalpiaz Bishop Chief, Geography Division June 26, 2018

The United Nations initiative on Global Geospatial Information Management (UN-GGIM) aims at playing a leading role in setting the agenda for the development of global geospatial information and to promote its use to address key global challenges. It provides a forum to liaise and coordinate among Member States, and between Member States and international organizations.

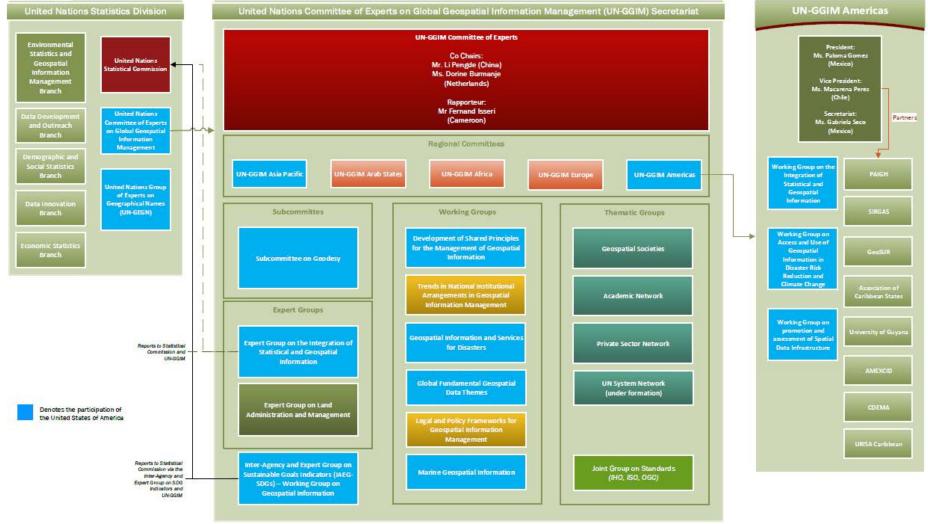

The UN-GGIM is mandated to provide a platform for the development of effective strategies on how to build and strengthen national capacity on geospatial information. Priorities include:

- Development of a shared statement of principles on the management of geospatial information
- Analysis of legal and policy frameworks, including critical issues related to authoritative data
- Adoption and implementation of standards by the global geospatial information community
- Development of a global geodetic reference frame
- Determination of fundamental data sets
- Development of a global map for sustainable development
- Creation of geospatial information supporting sustainable development and the post-2015 development agenda
- Integration of geospatial and statistical information
- Development of a knowledge base for geospatial information
- Identification of trends in national institutional arrangements in geospatial information management

Appointed as the Head of the National Delegation for the United States of America for the United Nations Committee of Experts on Global Geospatial Information Management (UN-GGIM) in February 2018

Responsibilities include coordinating U.S. efforts in support of the creation of geospatial information and integration with statistical information

### The United Nations Committee of Experts on Global Geospatial Information Management (UN-GGIM) - National Delegation for the United States of America

<u>United Nations Committee of Experts on Global Geospatial Information Management (UN-GGIM)</u>

Deirdre Dalpiaz Bishop (Census)

#### Expert Group on the Integration of Statistical and Geospatial Information

Vince Osier (Census), Josh Coutts (Census)

#### United Nations Group of Experts on Geographical Names (UN-GEGN)

Trent Palmer (NGA)

#### Inter-Agency and Expert Group on Sustainable Goals Indicators (IAEG-SDGs) – Working Group on Geospatial Information

Nancy Balkus (NASA), Kevin Conole (NASA), Lawrance Friedl (NASA), Argyro Kavvada (NASA), Andrew Parks (NASA)

#### Subcommittee on Geodesy

Julianna Blackwell (NOAA), Dan Roman (NOAA), Ben Phillips (NASA), Allison Craddock (NASA)

#### Working Group on Geospatial Information and Services for Disasters

David Fontenot (FEMA), Adrian Gardner (FEMA)

#### Working Group on Marine Geospatial Information

John Nyberg (NOAA) – Co-Chair, Tony Lavoi (NOAA) – Alternate, Keith Dominic (NGA), Caitin Johnson (NGA), John Lowell (NGA)

#### Regional Committee - UN-GGIM Americas

Argyro Kavvada (NASA), Julianna Blackwell (NOAA), Dan Roman (NOAA), Ivan Deloatch (USGS), Michael Tishler (USGS)

#### Regional Committee - UN-GGIM Asia Pacific

Julianna Blackwell (NOAA), Dan Roman (NOAA)

### **Upcoming Events**

Eighth Session of the United Nations Committee of Experts on Global Geospatial Information Management

July 30-31, 2018, New York – side events related to the Eighth Session August 1-3, 2018, New York – Eighth Session

United Nations World Data Forum
October 22-24, 2018, Dubai, UAE

United Nations Committee of Experts on Global Geospatial Information Management Regional Committee - UN-GGIM Americas

November 7-8, 2018, Mexico City, Mexico

United Nations World Geospatial Information Congress

November 19 – 21, 2018, Deging, Zhejiang Province, China
