NGAC Meeting
October 12, 2021

Frank Avila, LAG Chair
Roberta (Bobbi) Lenczowski, LAG Vice-Chair
LAG Mission

Provide advice to the Federal Government, through the Department of the Interior National Geospatial Advisory Committee, on the requirements, objectives and actions of the Landsat Program as they apply to continued delivery of societal benefits for the Nation and the global Earth observation community.

LAG was established in April 2012 as a subcommittee under the NGAC.
# LAG 2021 Membership

Current 2021 LAG Tasks
Task: Landsat in the Cloud Era

- What innovations should NLI consider a priority in providing data and information products in the cloud? Recommending innovations requires an understanding of the current status, policies that may restrict or facilitate innovation, and how these innovations might be accomplished.

Team: Walter Scott (Lead), Mariel Borowitz, Steve Brumby, Bobbi Lenczowski, Keith Masback, Vasit Sagan, and May Yuan

Actions: Initial draft developed, currently examining three use case: NASA, NOAA, ESA. USGS to provide additional information. Final draft for LAG review by late October, early November.

Target Due Date: 4QCY21

Target NGAC Approval: December 2021 NGAC Meeting
Task: Where is the “Water’s Edge” of NLI Scope?

- Since Federal resources are limited, and we are in a “phase shift” in the Earth Observation community, what earth observation products should the Federal government wisely provide to optimize benefit to the public.

Team: Robbie Schingler (Lead), Frank Avila, Steve Brumby, Bobbi Lenczowski, Anne Miglarese, Vasit Sagan, and May Yuan

Actions: Team has met and identified writing assignments. Outline drafted by Robbie and Steve. Initial draft will be provided to the task team by 3rd week of October.

Target Due Date: 4QCY21

Target NGAC Approval: December 2021 NGAC Meeting
