
NGAC Resolution

“The NGAC supports the findings and recommendations of the FGDC report, *“Advancing the Nation’s Geospatial Capabilities to Promote Federal, State, Local, and Tribal Climate Planning and Resilience,”* and recommends an immediate roll out of pilots, prototyping, and exploratory activities that complement and supplement the 120-day review described in the report. The NGAC believes that this parallel approach to addressing Federal climate mapping services will help align and accelerate the deployment of data and services to meet the needs of the Nation.”
