NGAC A-16 Subcommittee Report

Kim Nelson

September 18, 2012

A-16 Subcommittee

- General Support for the 17 Themes in the new A-16 Guidance
- Comments received focused primarily on sub-themes/data sets
  - Need for aviation data sets as part of Transportation Theme
    - domestic digital aeronautical data
    - Vertical obstruction data
  - Real Property Theme needs a new subcategory for private property in addition to public property
  - Several data sets are attributes of parcels, rather than separate data sets.

Potential Next Steps

- Selecting a Data Set and Process for review to recommend best practices to ensure adequate participation by user groups.
- Possible follow-up questions from FGDC regarding response to GAO review of Federal geospatial programs (including A-16/portfolio management activities).
