Priority #1 Statewide High Resolution Imagery

Completeness: Important Questions

- What is the value of a pixel?

- How much can a pixel afford to pay?

Statewide 6" High Resolution Imagery

Google Contract:

\$988,451 upfront
\$12.70 / mi²

Hosted imagery
services

Licensed use: State,
Local, Tribal,
contractors, & partners

Right to purchase
updates in 2016 & 2017

Registering to Use:

1a. Organization & Primary Contact

1b. Addition info from Contractors or Partners*

2. Informational Items and Terms of Service

3. On-Premise Files Request*

4. Acknowledgement & Digital Signature

Organizational Usage Agreement, Google Imagery License

For the State of Utah's Google High Resolution Aerial Photography License (DTS#0152):

The following agreement is required for all qualifying organizations to use the Utah license to Google's high resolution imagery.

Organizations (state departments or divisions, counties, cities, contractors, etc) need only complete the agreement once, and it is suggested this be done by a designated primary contact (GIS manager, CAD lead, mapping apps project manager, etc).

Contractors and partners need only fill out this agreement if access to the service is desired outside of an immediate licensee's physical facilities or network.

Email contact information collected will only be used to provide updates regarding the imagery terms of service, changes to imagery content, or notices regarding the imagery web services.

PART 1: Organization and Primary Contact (Required)

Organization: *

Primary Contact First and Last Name: *

Primary Contact Email *

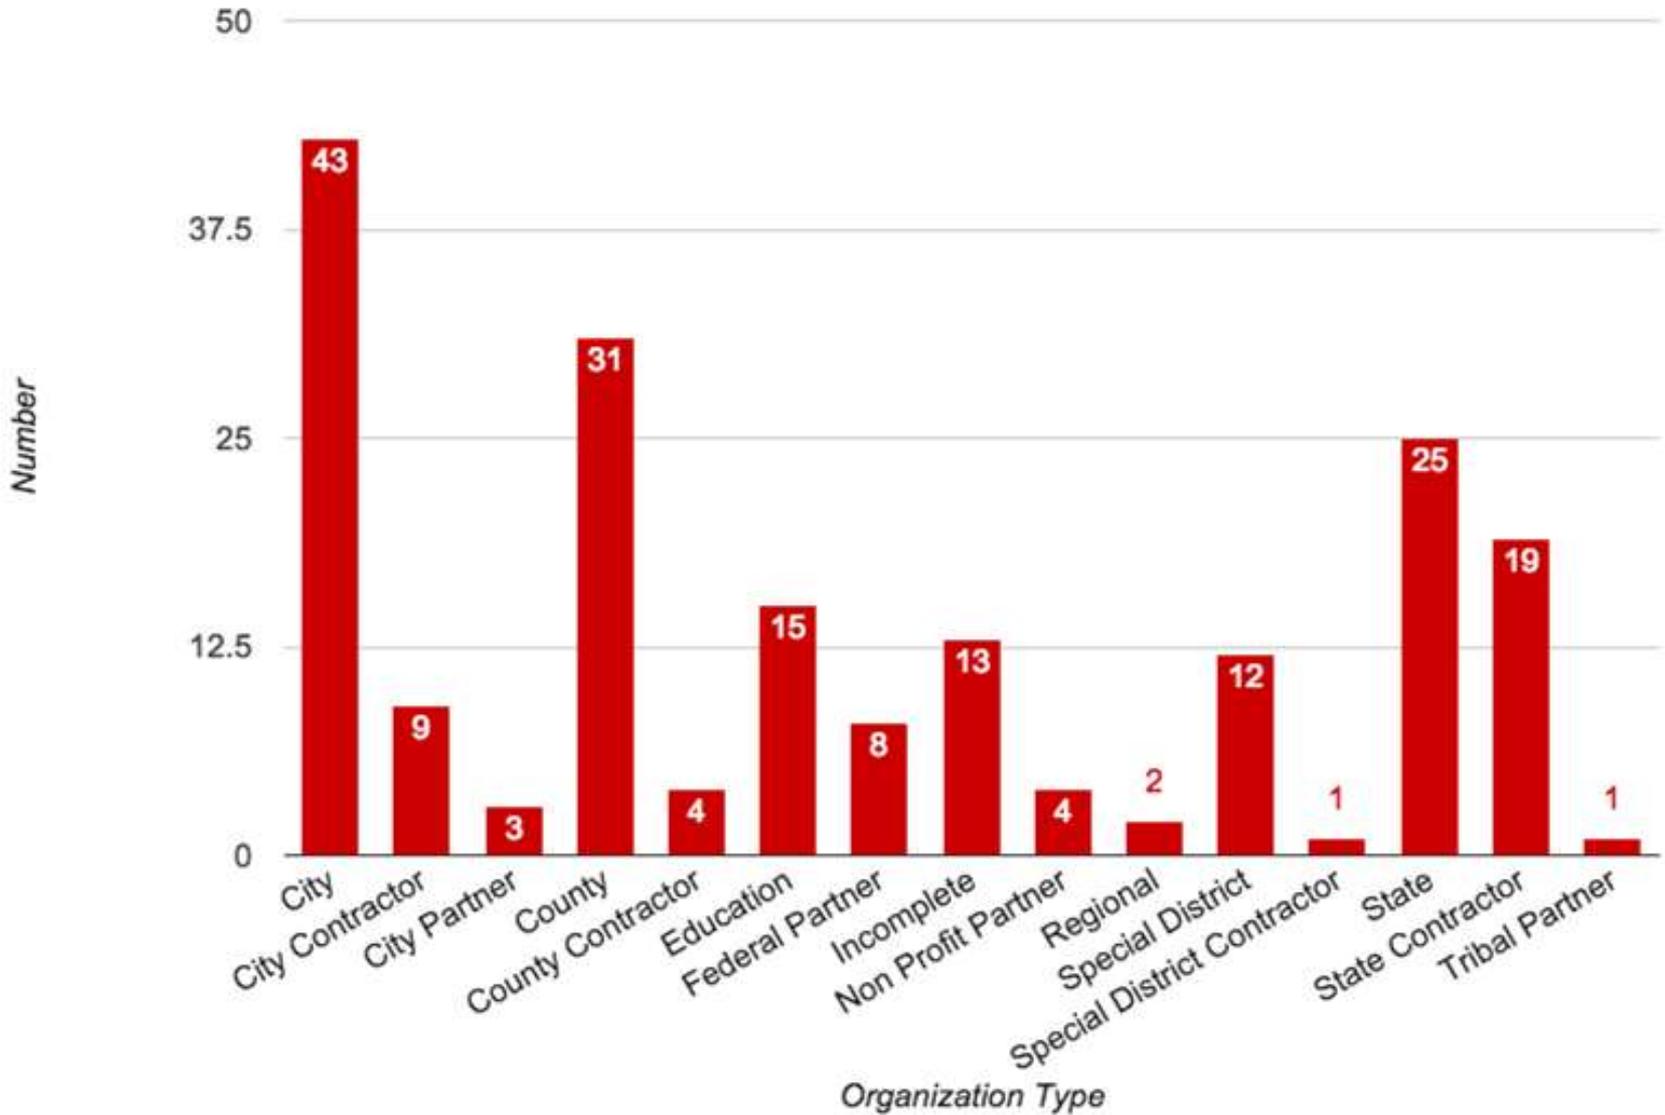

Primary Contact Phone: *

PART 1b: Additional Information for Contractors and Partner Organizations (Required if Applicable)

If not state, regional, local or tribal government, public safety communications center, K-12, or higher ed, then please provide:

Licensed Organizations, August 2015

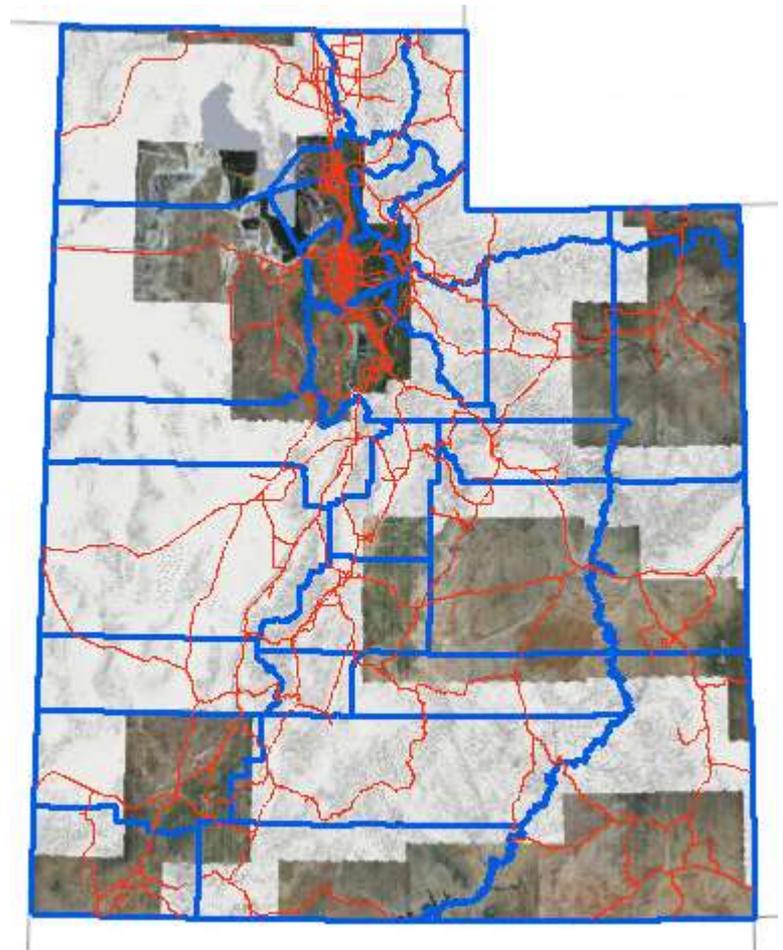

N= 177

2015 updates are included in license purchase:.

Expected updates, at a minimum are:

~37% of the state
(31K mi²)

Utah Imagery Appliance in GCP

Monthly Operating Costs 2015

GCP storage w/ Level 20 tiles (@23 TB)	\$575
Bandwidth (@100 GB)	\$13
Google Compute Engine hosting	\$250
Server operating system	\$0
Managed application & services (AppGeo)	\$416
Application database (BigQuery users & logs)	\$1
GCP storage credits (estimated)	\$-200

Total	\$1055
