From OMB Circular A-16

“The FGDC website (www.fgdc.gov) will serve as an up to date resource for reviewing the latest data standards, the source for spatial data that is already collected, boilerplate procurement language, laws and regulations regarding spatial data and information on the latest geospatial technologies.”

“Communicate with and foster communication among federal agencies and others concerning spatial data technology development, transfer, and exchange.”

Continued..

Provide and update at least annually:

(i) An online status summary for each data theme authored by the lead agencies, the FGDC, or other subcommittees, working groups, and advisory committees.

(ii) An online collection of periodic technical publications, management articles and reports related to the NSDI.

(iii) An online FGDC membership directory, including current subcommittee and working group memberships.

Areas of Improvements

- ◆ Look & Feel
- ◆ Navigation & Search
- ◆ Content (revision & restructuring)
- ◆ Social Media (blogs, facebook, twitter)
- ◆ Multimedia (videos, graphics)

Timeline

- ◆ 6 months
- ◆ We will be updating CG regularly as milestones are met

Discussion

- ◆ Your thoughts & ideas for improvement
- ◆ What works for you and what doesn't
- ◆ What new features & tools would you like to see on the website to improve communication and collaboration?

Suggestions & Feedback for Website Improvement
