Architecture & Technology Working Group

- **Status: Active**
  - Last meeting: 8 February, 2016 focused on GeoPlatform Overview
  - Revised Draft Charter under review
  - Membership List and additional information at [http://www.fgdc.gov/participation/working-groups-subcommittees/atwg/index_html](http://www.fgdc.gov/participation/working-groups-subcommittees/atwg/index_html)

Discussed Roles of ATWG to support the GeoPlatform and as part of FGDC

- The ATWG is charged with providing development direction and guidance to support the Managing Partner decisions for daily operations to extend and enhance the capabilities and functionality of the GeoPlatform
- The ATWG will be the focal point for integrating and providing interagency and intergovernmental and academic requirements in ranked order to the Managing Partner to add to the appropriate development cycle(s) of the GeoPlatform

Contact: William Mullen DOI IOS
william_mullen@ios.doi.gov
Next Steps:

Next Meeting: 10 March, 2016

- Goal to finalize the Draft Charter by 18 March;

New Business:

- **Assess Conflicting Priorities** – Provide GeoPlatform Tech Team guidance/recommendation on how to prioritize development resources.

- **Web Service Utilization Reporting** – Provide GeoPlatform Tech Team recommendations on how to both ‘measure’ and ‘report’ service utilization for web services.

- **Other Considerations** –
  - Should the Technical Team consider devoting resources for some form of individual or community notification (RSS type?) when ‘interest area/topical’ content is posted to GP
  - Should the Technical Team continue to pursue a Mobile Observation Service application?
