Federal Lands Roads Working Group

Building a consolidated data set containing an inventory of **roads on Federal Lands** to be used to support mapping, emergency management, planning needs, resource allocation, land management, recreation, and other uses by members of the Federal Lands Roads Working Group which is under the FGDC Transportation Subcommittee.

- Formed April 2018
- Under the Transportation Subcommittee
- Membership is open to all
- Meetings are held bi-monthly (currently)
 - April 4, 2018 – kick-off meeting
 - June 6 meeting – 26 representatives from BLM, BIA, Census, DOI, NPS, USBR, USFS, USGS, USDOT
 - August 8 – FLWG and PAD-US presentation
 - Next meeting – October 3 at 1 pm ET

Federal Lands Roads Working Group

Exploring the governance model used by the Federal Lands Working Group in building the Protected Areas Database of the United States (PAD-US).

Next Steps:

- Continue to build a core team with a need for this data
- Establish leadership with vision and technical expertise
- Develop timeline with milestones
- Establish maintenance model
