# Agenda

- No teleconference this quarter
- Announcements were sent by email

# Announcements

Discuss metadata activities

FGDC Metadata Working Group

# Announcements

- ISO Metadata Standards Endorsement Process
  - On May 25, 2016, the Standards Metadata Working Group approved the MWG recommendation for FGDC endorsement of:
    - ISO 19115-1:2014 Geographic information -- Metadata -- Part 1: Fundamentals
    - ISO 19157:2013 Geographic information -- Data quality
  - The SWG asked for one change to the ISO 19115-1 proposal (see attached document) to add in section b, which is now included in the final version of the proposal:
    - *Maintenance of FGDC Content Standard for Digital Geospatial Metadata (1998) for legacy purposes*
  - The SWG felt it was important to address the existing (ISO/FGDC) metadata standards that are relevant to the adoption of ISO 19115-1 as an FGDC endorsed standard moving forward.
- The SWG will now begin initiating the process of formal FGDC endorsement.

# Announcements
