

Federal Committee on
STATISTICAL METHODOLOGY

Geospatial Interest Group (GIG)

Geospatial Web Applications, Tools and Data Workshop

Friday November 18th, 2016

8:30 am to 4:30 pm

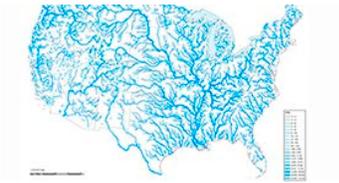

U.S. Bureau of Labor Statistics

2 Massachusetts Ave. N.E.

Washington, D.C. 20212

or

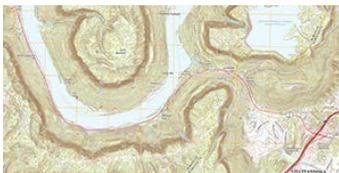

Remote Participation via Adobe Connect

The Federal Committee on Statistical Methodology (FCSM) Geospatial Interest Group (GIG) is proud to sponsor a one-day workshop focusing on spatial analysis tools.

Come join us for a day of interactive demonstrations featuring exciting geospatial web applications developed by federal agencies. You will learn about each tool and have time to test it out. Experts will also highlight their geospatial apps, tools, data and products in a series of lightning talks followed by an open session where you can meet each of the experts and have in depth discussions.

Register now at:
