

Future Directions
Partnerships with Purpose
50 States Monthly report January 2005

1. Where team needs assistance: Our work group will still need to interact with the communications group and other work groups as we begin to implement the plan.
2. Meetings: Our group did not hold any meetings in January. Work Group activity was limited to reviewing a "flyer" on the program, and comments on version 8.2 by E-mail.
3. Accomplishments: The Action Plan (v8.2) was presented to the FGDC Coordination Workgroup. Comments were received and incorporated into version 9.1 of the action plan by the work group.
4. Next Steps: NSGIC will host a forum at the Hall of States on March 16 to "kick-off" the program. It will also inform all states about the program and work with appropriate Federal agencies to determine if grant funds are available to help implement the program.
